EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Response to Amendment

1. Applicant's response filed on April 4, 2006, has been fully considered and entered.

Reasons for Allowance

2. Claims 1-12 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest an optical modulator comprising an optical waveguide and ground electrodes formed on the substrate and a traveling wave electrode formed on the substrate including a first region to input an externally applied electrical signal, a second region to control the light propagated through the optical waveguide with an electric field generated between the ground electrodes due to the applied electrical signal, and a third region provided at the intermediate region between the first region and the second region to propagate the electrical signal to the second region without any reflection, wherein the impedance is static in the third region in combination with the other limitations of claims 1 and 7.

Claims 2-6 depend from claim 1.

Claims 8-12 depend from claim 7.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
